People love dogs for many reasons. Some people like dogs because they can be friends to people. Dogs can pick things up, like a newspaper or a pair of slippers, and bring them to a person. Dogs can play with kids. Dogs can play fetch with a stick. Some dogs can catch a ball or a Frisbee. There are dogs that can jump into a river or do other tricks.

Dogs can be friends to people who are lonely. Dogs can help older people feel younger. Dogs can wag their tails and show a person that they are happy to see them.

Dogs can help blind people walk safely to work, the library, or to the store. Dogs can help police officers get criminals. Dogs can use their sense of smell to help find a lost child.

Dogs can do so many things to help people or make them happy. It is great that we live in a world with dogs.
